OPHTHALMIC TRAUMA MEETING

12TH COSC UM-APOTS
OPHTHALMIC TRAUMA
MEETING 2022

Repair, Restore, Rehabilitate, pRevent - Ophthalmic Trauma 360°

Connexion Conference & Event Centre, Kuala Lumpur
17th – 18th September 2022

Call For Abstracts for Oral and Poster Presentations
Best presentation awards to be Won!

Call For Surgical Video Submissions
Ophthalmologists are invited to send in videos for the Surgical Video Sessions. The videos will be hosted on the conference website where delegates will be able to vote for the best videos.

Abstract and Video Submissions Open
15th April 2022

Abstract and Video Submissions Close
15th June 2022

PLEASE SCAN THE QR CODE TO SIGN UP!

Sign up on our website cosc-apots2022.com and we'll keep you posted on updates. Please contact secretariat@cosc-apots2022.com for more information.

Organised by: Supported by:
Welcome Message from the Organising Chairperson of the 12th COSC UM-APOTS Ophthalmic Trauma Meeting 2022

After a 5-year intermission, University Malaya is excited as it is our turn to host the upcoming Conjoint Ophthalmology Scientific Conference (COSC) on 17th-18th September 2022.

We are pleased to announce that the meeting will go big this year as it will be held in collaboration with the Asia Pacific Ophthalmic Trauma Society (APOTS) to give valuable opportunities for our attendees to be a part of an international conference in our very own shores.

The theme of the conference is Repair, Restore, Rehabilitate, pRevent – Ophthalmic Trauma 360°.

Malaysia’s travel borders have re-opened on the 1st April 2022. We welcome everyone both international and national to our full in-person conference in Kuala Lumpur Malaysia!

Since ocular trauma is relevant to all ophthalmologists, the Scientific Committee is vigorously planning an intensive program encompassing all the subspecialties in ophthalmology. There will be sessions curated specially for trainees or consultants as well as common sessions such as the plenary sessions, symposiums, ICs, industry sponsored sessions, award ceremonies and many more.

The annual Inter-University Quiz which is a highlight of COSC will be held on the last day. We urge our universities to get ready their teams early for an exhilarating quiz.

We welcome everyone, both national and international to submit their trauma related abstracts and for our national delegates, COSC will be accepting abstracts on other segments of ophthalmology. All successful abstracts will be published in the Malaysian Journal of Ophthalmology (MyJO).

All Ophthalmologists are also invited to send in videos for the Surgical Video Sessions. The aim of this program is to share techniques and surgical approaches with all members of the ophthalmology surgical team to improve the care of our patients.

Most importantly, the reason why we meet is not just to gain scientific knowledge but to connect in-person with experts around the globe and in our own backyard. We look forward to seeing fellow ophthalmologists, trainees, and industry partners in-person.

It is going to be fantastic for the ophthalmology fraternity to come together and share knowledge, experience, and inspiration with local and world experts in the field. On behalf of the 12th COSC organising committee, we look forward to welcoming you all soon in Kuala Lumpur, Malaysia.

Assoc. Prof. Dr. Norlina Ramli

Welcome Message from the President of the Asia Pacific Ophthalmic Trauma Society (APOTS)

I am happy to announce that the Asia Pacific Ophthalmic Trauma Society Meeting in 2022 will be held in Kuala Lumpur, Malaysia in collaboration with the 12th Conjoint Ophthalmology Scientific Conference 2022 hosted by University of Malaya.

The theme of the conference is **Repair, Restore, Rehabilitate, pRevent - Ophthalmic Trauma 360°**. The dates for this meeting will be the 17th to 18th September 2022.

APOTS is committed to this meeting and will be inviting many of renowned ophthalmic trauma repair surgeons from around the globe to join us in Kuala Lumpur to discuss the latest medical advancements in this field and share their experiences in their mission to save the most important of the 5 organs of sense i.e., our eyes.

Scientific sessions will focus on oculoplastic, vitreoretinal, cornea, cataract, neuroophthalmological and glaucoma and many more. We will also have the prestigious Global Trauma Excellence Award Lecture and Asia Pacific Trauma Excellence Lecture.

Our joint scientific committee will be working hard to prepare an intense and impactful programme.

I hope that you are not only ready but excited to join us in this meeting in-person.

It is time for us to meet, enjoy re-connecting and making new friendships and learn during this meeting. See you in Kuala Lumpur, Malaysia.

Thank you.

**Dr. S Natarajan**
President
Asia Pacific Ophthalmic Trauma Society (APOTS)

About Asia Pacific Ophthalmic Trauma Society (APOTS)

Of the 5 organs of sense of the body, our eyes is the most important sense. Centuries ago, humans would rely on our sense of sight for survival in the wild. In today’s world, having sight is a great equalizer to education and access to job opportunities.

Recognising this, it is the mission of APOTS to help save sight for millions of people who might otherwise lose it to ophthalmic trauma.

Asia Pacific Ophthalmic Trauma Society started in 2011. It is a network and team of eye care professionals with special interest in ophthalmic trauma. This network drives the advancement of clinical care, science and research in this very important field.

While the society maybe based in the Asia Pacific, we have members from 25 different countries from around the world.

We invite all ophthalmologists and pathologists and also radiologists, radiotherapists, ophthalmic nurses and ocularists to join us as members who share the same vision as APOTS to join us as members.

APOTS membership fees is a lifetime membership and the funds collected is used for the continuing medical education efforts, research in the field of ophthalmic trauma and to set up multicentre collaborative studies.

Promotion for Asia Pacific Ophthalmic Trauma Society (APOTS) membership:

APOTS is pleased to invite the national delegates from Malaysia to join APOTS at one time special life-time membership fees: 50% of regular life time APOTS membership fees.

Don’t miss the opportunity to be part of the APOTS family and networking with experts in the field of ophthalmic trauma once you are member of APOTS.

Please reach out to APOTS secretariat and membership committee at isotapots@gmail.com

For membership subscription, please scan the QR code or click the link below:

Dear friends and colleagues,

It gives us much pleasure to welcome you to the 12th Conjoint Ophthalmology Scientific Conference co-organised by University of Malaya (UM) and Asia Pacific Ophthalmic Trauma Society (APOTS). We are very excited for this first ever collaboration between UM and APOTS and we strive to bring the best of ophthalmic trauma from the Asia-Pacific region and beyond to all attendees this year.

As nations around the world reopen their borders and Malaysia has re-opened her borders on 1st April 2022, this great meeting will be held as a physical meeting. We invite our colleagues and speakers to join us in-person in Kuala Lumpur, Malaysia and re-connect.

With your participation, this conference promises a scientific feast covering all aspects of Ocular & Adnexal Trauma. The organising committee has planned not only a scientific and intellectual exchange but also, global travel permitting, a great social, cultural and gastronomical experience, truly reflecting the rich culture of Southeast Asia in ‘Malaysia – Truly Asia’.

Do submit abstracts, register early availing the early bird privilege. Together let’s make the 12th COSC UM-APOTS 2022 meeting a grand success.

Abstract Guidelines:
1. Abstract should be written in English.
2. Any work submitted must be original and have not been presented in any scientific meetings or published previously.
3. The Abstract Title must be concise. Avoid using abbreviations in the title.
4. Abstract should be no more than 250 words not including title.
5. Restricted to ONE page only as per abstract template.
6. Do not mention in the abstract the names of any affiliated institutes, academic institutions, hospitals, eye centers etc. or names of any individuals involved in the study. Otherwise, the abstract will be rejected outright.
7. Abstract should only contain text. Figures and tables are not permitted.
8. Define each abbreviation in the first time it is used in the abstract by placing what it stands for in parentheses.
11. Spacing and Alignment: Single spacing and justified fields.
12. Format layout: 1 Column Page
13. Margin: 0.75” (1.9cm) margin.
14. File submitted must be in Word document not more than 2.5MB.

IMPORTANT NOTE
1. The presenting author MUST BE the first author.
2. All presenting authors must complete their registration for the conference and prepare the presentation. Selected presenters will need to present their presentation LIVE during the conference.
3. Abstract submissions are limited to a maximum of 3 abstracts per presenting author.
4. All abstracts submitted must be original and has never been published elsewhere.
5. All abstracts must be submitted via the online abstract submission platform on the conference website. Late submissions, email and paper submissions will not be allowed.
6. During the online submission of abstracts, submitters will be given the opportunity to indicate if they wish for their submission to be published or not in the supplementary issue of Malaysian Journal of Ophthalmology (MyJO).
7. All materials accepted for publication in MyJO will become the permanent property of the Journal. The Journal allows readers to read, download, copy, print, search and distribute the published articles, provided the authors are properly acknowledged and cited.
8. Please note that in the event of any issues arising from these abstracts including legal issues, the applicant is solely responsible.

Abstract Review
All abstracts will be peer-reviewed by the Review Committee. The reviewing process is confidential, and the decision is final.

The Review Committee reserves the rights to:
• Select the abstracts relevant to the category.
• Decide on the final form of presentation which is either Oral or E-Poster Presentation.
• Edit the abstract if it has significant spelling and grammatical mistakes. It is the author’s responsibility to proofread and submit an abstract with correct spelling and grammar.

How to submit?
1. Pre-record and edit your video.
3. Videos that comply with the terms and conditions will be accepted.
4. The videos will be played during the conference from 17th to 18th September 2022.
5. The best videos will be announced during the Best of Surgical Videos Session at the Closing Ceremony.

Video Presentation Submission Guidelines
1. All submitted videos MUST be accompanied by a declaration of having been presented previously e.g. “This video has never been presented elsewhere previously,” / “This video has previously been presented at XXXXXXX (please state the event/meeting, year and awards received, if any).”
2. Pre-record and edit your video. Video presentations should be straightforward, professional and clear.
3. Ensure your videos are within 3 to 5 minutes duration and that the quality of the recording and audio are clear. The organizers will not provide any video editing services.
4. Submit your final video presentation via the conference website ([cosc-apots2022.com](http://cosc-apots2022.com)).
5. The video submitted must be conducted substantially by the submitter.
6. The submitter may be assisted by others in the process of preparing the video for submission. We suggest that any acknowledgement of assistants are included in the closing segment of the video.
7. The video submitter should take full responsibility to ensure that they have full ownership of copyright to the content that is uploaded. The video submitter should also remove all potentially identifying personal information including patient’s names, initials, identifying features or numbers from the images, charts, graphs, tables, or text if any, before submitting the video.
8. All successful submitters agree that their videos will be showcased during the 12th COSC UM-APOTS 2022.
9. The video will become the permanent property of 12th COSC UM-APOTS 2022 organisers and may be downloaded, copied, searched, and distributed provided the submitter is properly acknowledged and cited.
10. Please note that in the event of any issues arising from the videos including legal issues, the submitter is solely responsible.
Experience KUALA LUMPUR

Kuala Lumpur fondly known as KL, is a modern and bustling city and is one of the region’s most prosperous capitals. KL consists of a melting pot of cultures infused together and boasts a variety of attractions such as interesting heritage sites, shopping, entertainment, nature and adventure.

Here are some attractions you would not want to miss while you are here in Kuala Lumpur.

**Petronas Twin Towers**
The 452 metres tall Petronas Twin Towers is the tallest twin towers in the world.

At the base of the Petronas Twin Towers is Suria KLCC, which is a shopping mall that is very popular among tourists. Tourists can also take a stroll along the beautiful landscaped KLCC Park, which is located at the side of the twin towers, where it features a jogging track, walking paths, water fountain and a wading pool for children.

Besides the mall and the park, there are also other attractions such as the Aquaria KLCC, Petronas Art Gallery and Petrosains Science Center inside the Petronas Twin Towers.

**Batu Caves**
Batu Caves is an iconic and most frequented tourist attraction in Kuala Lumpur.

It is a limestone hill comprising 3 major caves featuring temples and Hindu shrines. Outside Batu Caves stands the world’s tallest golden statue of Lord Murugan, a Hindu Deity, at 42.7 metres tall.

The attraction of Batu Caves includes the steep 272 steps climb up to finally view the stunning skyline of the city centre. Along your way up, you will see lots of monkeys frolic around the caves.

**Malaysian Food**
Food can be considered as the national obsession. It is not uncommon to be greeted by the phrase “Sudah makan?” which means “Have you eaten?”. Malaysian food is heavily influenced by Thai, Chinese, Indonesian and Indian cuisine. As elsewhere in Asia, rice is an essential staple. Some of the popular Malaysian food are Nasi Lemak, Char Kuey Teow, Roti Canai and Curry Laksa. Our local delicacies will definitely tantalise your tastebuds.

**National Museum**
The National Museum of Malaysia is a beautiful building characterized by traditional Malay Minangkabau-style architecture which stands in the heart of the city of Kuala Lumpur. It displays an excellent introduction to Malaysia’s history, economy, geography, arts, crafts and culture.
